

Firmware/Software Release Note

Date: Dec 2023

Distribution: Public

Reference: MAGile-RN-EN-2

Multilin Agile * Firmware

Software Version 05C - December 2023

Key New Features

N/A

Other New Features

N/A

Notable Quality Improvements

- Fixed an issue that made devices with comms digit (digit 9 of the CORTEC) equal to “2” reboot constantly
- Fixed an issue in the firmware upgrade that changed the device CORTEC into the default one after flashing
- Fixed an issue in the HMI that made the status screen of the I/Os show an incorrect number of Input/Outputs, as well as incorrect board and pin names

Hardware Compatibility

- Design Suffix “E”

Configuration Management Tool Compatibility

- Compatible with EnerVista D&I version v4.10 and newer

Upgrade Procedure

- Follow the process outlined in the Instruction Manual

Upgrade Impact

- Firmware v05C compatible with v05B and v05A
- When updating the firmware, files are overwritten and all settings could be lost
- Always save all data before upgrading
- Configuration of the CID file is required to be created using D&I EnerVista Setup 4.10 or newer

Software Version 05B - November 2023

Key New Features

N/A

Other New Features

N/A

Notable Quality Improvements

- Fixed an issue in the PSL that didn't properly load any of the Minor Error signals
- Fixed an issue in the RS485 2nd port that stopped communicating properly after rebooting the device
- Fixed an issue in PTP_1588 due to which the RTC was not updating after a change in the PTP master clock's date/time

Hardware Compatibility

- Design Suffix "E"

Configuration Management Tool Compatibility

- Compatible with EnerVista D&I version v4.10 and newer

Upgrade Procedure

- Follow the process outlined in the Instruction Manual

Upgrade Impact

- Firmware v05B compatible with v05A
- When updating the firmware, files are overwritten and all settings could be lost
- Always save all data before upgrading
- Configuration of the CID file is required to be created using D&I EnerVista Setup 4.10 or newer
